

A 10x20 grid of squares. The squares are arranged in 10 rows and 20 columns. Some squares are filled with black, while others are empty. The filled squares form a sparse pattern, roughly rectangular, spanning from row 1 to row 10 and column 1 to column 20. The pattern is not uniform, with some squares missing in certain rows and columns.

□ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □

A 10x20 grid of squares, each containing a small black dot. The dots are distributed across the grid in a pattern that suggests a 2D spatial distribution. The dots are more densely packed in some areas and more sparse in others, creating a visual representation of a spatial field or data distribution.
