The diagram consists of two horizontal rows of small squares. Each row contains 20 squares in total. In the top row, the squares at indices 1 through 20 are all shaded gray. In the bottom row, the squares at indices 1 through 20 are also all shaded gray.

☐ ☐ ☐

A 5x20 grid of squares. The squares are filled with varying shades of gray, representing a noisy image of the letter 'A'. The noise is introduced by randomly changing the color of some squares. The letter 'A' is formed by a pattern of darker squares, while the background is composed of lighter squares. The grid is 5 rows high and 20 columns wide.
