

A 5x25 grid of squares representing a sparse matrix. The squares are arranged in a pattern that suggests a banded structure with some additional non-zero elements. Row 1: 25 squares. Row 2: 25 squares. Row 3: 25 squares. Row 4: 25 squares. Row 5: 8 squares.

A 10x20 grid of squares. The squares are filled with varying shades of gray, representing a noisy image of the letter 'A'. The noise is represented by squares that are either black or white, deviating from the intended gray tones of the letter 'A'. The letter 'A' is formed by a pattern of gray squares, while the background and some internal details are filled with black and white squares.

A 4x20 grid of squares representing a sparse matrix. The first row has 18 squares, mostly in the first 15 columns. The second row has 19 squares, mostly in the first 15 columns. The third row has 19 squares, mostly in the first 15 columns. The fourth row has 3 squares in the first 5 columns.

A 20x20 grid of squares. Each square is filled with a different shade of gray, ranging from very light to dark. The distribution of shades is non-uniform, creating a textured, abstract pattern. Some squares are darker, while others are lighter, and the overall effect is a dense, pixelated gray field.
